

ResponseCare® Services

Midas Rex® ESP Lite

A flexible exchange plan that fits your maintenance budget

Equipment availability and performance are key drivers to surgical procedure efficiency. Medtronic's ESP Lite program provides overnight exchanges for your Midas Rex motors. Additionally, discounts are applied to per incident repairs or exchanges for your attachments, consoles, and foot controls. This ensures you have complete protection on the most expensive element of your system with preferred service pricing on other system components.

- Convenience of an overnight exchange on your motors
- Peace of mind knowing your system is maintained by Medtronic and that case disruptions will be minimized with overnight motor exchange
- All shipment costs included on motor exchanges
- Priority seating for Medtronic Midas Rex Institute training events

What's included?

- All Midas Rex motors are covered by one flat annual price
- A 30% discount is applied to repairs and exchanges of power consoles, attachments, foot controls and cables
