STEALTHSTATION™ S7™ SYSTEM CRANIAL E-LEARNING COURSE

Build confidence and competence with realistic scenario-based modules. Designed with your input to meet your needs.

Features

- **Easy to access** via <http://responsecare-elearning.medtronic.com>
- **Designed by expert** Medtronic product specialists and technical support personnel
- **Versatile** training to learn about the equipment for the first time or as a refresher
- **Earn a course certificate and one nursing contact hour** upon completion of each module*

Course Overview

- Set up the StealthStation™ Navigation System for an optical or electromagnetic (EM) case
- Identify system steps for various procedure types
- Navigate through the cranial application
- Verify instruments to be used in a case
- Perform a patient registration

*Medtronic Surgical Technologies is approved by the California Board of Registered Nursing (provider number 16600) for one contact hour per module. Contact hours received by completing this course can be submitted to the individual's licensing board. In order to issue a certificate with contact hours, you must provide your license or certification number to be included on your certificate. Although the credentialing agency is located in California, the contact hours apply in other states as well. However, it is up to your licensing board whether they will accept these contact hours. Contact hours will be awarded based on satisfactory completion of full modules. Partial credit will not be given. A nurse may obtain CE credits for a specific Medtronic course only once annually. Access to the online learning is by annual subscription or through a service agreement. Termination and any associated refunds will be in accordance with the terms of the subscription or service agreement.

For further information, please call Medtronic Neurosurgery at 877.242.9504 or consult the Medtronic website at www.medtronicneurosurgery.com www.responsecare.medtronic.com.
